

A SIMPLER WAY TO DO HOME INSURANCE

WHAT IS SWYFFT?

Swyfft is an industry-changing homeowners insurance platform that provides a bindable quote in only 5 seconds. All you need is a home's address. The entire policy can be quoted, adjusted if necessary, bound, issued, and emailed to the customer in under a minute, all right from your smartphone.

WHAT'S IN IT FOR HOMEOWNERS?

- 1. Great Coverage.** Every one of our policies is "A-" rated or better by A.M. Best and comes with Guaranteed Full Replacement Cost Coverage - a great benefit considering 64% of American homes are undervalued for insurance.
- 2. Faster Process.** Literally one click to get a bindable quote from any mobile device or desktop. No redirecting or clickbait.
- 3. Competitive Pricing.** Reduce stress, save time and sometimes save money too. Our proprietary analytics can assess risk more efficiently than our competitors and our philosophy is to give that savings back to the customer.

A simple user experience from start to finish. Get a bindable quote in 5 seconds, purchase that policy in 30 seconds!

WHY SHOULD AGENTS CARE?

A fast reliable solution to an often overlooked closing requirement. Add value to the process and boost client satisfaction & loyalty.

Agencies can add an additional solution to the agent toolkit without disrupting the process. The Swyfft Insurance experience is so much faster than our competitors that we're sure your buyers will be impressed.

WHAT MAKES OUR PRODUCT SPECIAL? (HINT: IT'S ALL ABOUT THE DATA)

Within the past 5 years, third party data sources now release extensive information about a specific property. Using LIDAR data, the National Fire Incident Reporting System (NFIRS) and several other data sources our unique patented models result in more accurate predictions for losses from hurricanes, fires, and other perils.
